GPS NAVIGATOR Khusus Untuk MOBIL Idaman Anda
Navigate with Your Vehicle's Audio/Video System

**Turns Your Vehicle's Audio/
Video System into a
Powerful STREET NAVIGATOR**

GVN BlackBox integrates with your vehicle's audio/video entertainment system so you can view detailed street maps on your system's integrated video display and hear turn-by-turn directions through your vehicle's stereo.

Navigate with Your Vehicles Audio/Video System

Look up and route directly to specific addresses or points of interest - such as restaurants, hotels, gas stations, retail shops or ATMs - while viewing your exact location on detailed street maps. It even announces the name of exits and streets through your car's speakers so you never have to take your eyes off the road. Map graphics are shown on your system's integrated video display.

GVN BlackBox comes bundled with detailed Indonesia City Navigator® NT map data for all of Jakarta and Indonesia. The GVN BlackBox is operated by the included RF remote control.

ACQUIRING GPS SIGNALS

The first time you turn on the GVN BlackBox, you must wait while the system acquires satellite signals for the first time. This process could take up to several minutes. Make sure your vehicle is outdoors in an open area away from tall buildings and trees and for fastest acquisition. After the system acquires satellites for the first time, it will acquire satellites quickly each time thereafter.
